

ABSTRACT OF THE DISCLOSURE

A method for providing an elective organization that provides premium health services for people choosing to become a member of the organization. The method comprises (a) associating a plurality of doctors in various locations with an organization, the associated doctors being selected by the organization based on each doctor's respective credentials; and (b) charging a membership fee to allow a plurality of members to belong to the organization, the members being permitted to seek any number of visits with any of the associated doctors in any of the various locations, herein the organization does not provide health insurance, but provides additional medical care regardless of any health insurance a member may already possess.
